

Winter One-Acts 2006

Welcome to our second year of the winter one-acts. After last year's success we thought we would try it again. You may have noticed the price of the ticket is a little higher than a normal production, that's because we plan to feed you. If you were here last year we will follow the same set up, for those that weren't, welcome, here's how it works. During each one-act you will receive a different course. The salad during the first one-act, the main course during the second, and dessert in the forth, we give you the third for a little breathing room. If you need anything, more to drink or eat just ask your server, you will find her/his name under the menu, feel free to eat until we run out of food. Thank you for coming out to see our shows this evening and have a wonderful time.
