"Greater love has no man than this, that one  
lay down his life for his friends."

John 15:13

### MUSICAL SELECTIONS

#### Everything

Ev'rything with you is better.  
We got it good as long as we're together.  
Anything we do, whatever,  
Ev'rything is better with you!

#### Everyone Knows

Ev'ryone knows what ev'ryone knows;  
Nobody has to be told.  
Ev'ryone knows what ev'ryone knows;  
It's written on every soul.

#### Get Real

Get real! Show me how you really feel.  
When you play the part, you hide your heart.  
So come on, get real.

Get real. Let me tell you how I feel.  
Don't pretend to be a friend to me  
If you won't get real.

#### Can You Reach My Friend?

Can You reach my friend?  
You're the only One who can.  
Lord, I know that You love her,  
So make her understand.

Can You reach my friend?  
Bring her searching to an end.  
And help her give her heart to You.

#### Thank You

Thank You, thank You for loving me;  
Thank You for all You have done.  
I could never be all I was meant to be  
If You hadn't given Your love.

#### Is There Anybody Out There?

Is there anybody out there?  
Someone I can trust?

#### Friends

Friends are friends forever  
If the Lord's the Lord of them.  
And a friend will not say "never,"  
'Cause the welcome will not end.  
Though it's hard to let you go,  
In the Father's hands we know  
That a lifetime's not too long  
To live as friends.

#### Never Had a Friend Like You

I've never had a Friend like You,  
Never knew what love could do,  
You had ev'rything,  
And laid it down for me.

I've never had a Friend like You,  
And I pray that I will be  
The kind of friend  
You have been to me.

**FRIENDS . . . FOREVER**  
Mini-Musical Tour - Fall 1988

A poem by Julie Ann:

"A Friend Should Be Radical, Fanatical,  
but Most of All, Mathamatical"

A friend should be radical:  
He should love when you're unlovable,  
Hug when you're unhuggable,  
And bear when you're unbearable.

A friend should be fanatical:  
He should cheer when the whole world boos,  
Dance when you get good news,  
And cry when you cry, too.

But most of all,  
a friend should be mathamatical:  
He should multiply the joy,  
Divide the sorrow,  
Subtract the past,  
And add to tomorrow,  
Calculate the need deep in your heart  
And always be bigger than the sum  
of all his parts.
